- 1. Today's transportation industry is very competitive it is wise to do intensive research before you attempt to establish yourself as a Transportation Service Provider and Transporter Contractor. To ensure that one will be super successful in any industry, one must consider how committed and enthusiastic oneself is about an industry, desire is probably the most important motivation you will ever need to be fabulously successful.**
Knowledge about an Industry is of course very important but defiantly not the most important, nothing magnificent has ever been achieved without enthusiasm, knowing where you want to go with your business is also very important so draw a roadmap in your mind and start visualising yourself there.
Being as far as you are right now with your open developmental outlook on life and business, excepting that one must take calculated risks to go to the top. We expect you will achieve your and our endeavours, and we will happily support you all the way.
OK !!! you convinced us about your enthusiasm and your goals now let's start the journey together. Taking the lead in business and cultivating new ground is defiantly not for everyone.

- 2. We introduce to you the Springbok Group's business model that has proven itself through many years. The Springbok Group (Pty) Franchise is one of the safest and most risk-free ways to start up and run a successful Transportation business.**
Owning a Springbok Group (Pty) Ltd Franchise isn't for everyone, so take the time to understand what running a Springbok Group (Pty) Ltd Franchise entails - especially our marketing aspects - before you decide to buy a Springbok Group (Pty) Ltd Franchise. Business franchises and franchising opportunities are increasing internationally. This is because the business franchising formula and the franchising model is proven and successful.
Ask yourself will I enjoy my Springbok Group (Pty) Ltd Franchise?
Buying a franchise that you will enjoy is the most important factor of all. Most businesses - all types of business, not just franchises - succeed when the owner truly enjoys the products and/or services that the business supplies.
If you enjoy and are interested in the products and services, and the customers and markets, then you will learn and gather information and skills rapidly. If you enjoy the business it is likely that you will possess a good deal of knowledge about it already. Being an expert and a specialist at what you do is essential to running any successful business - enjoyment and expertise naturally go

together. You will find it easy to specialise and become an expert in an area that you enjoy quite simply because it is a pleasure and a joy - not a chore.

When you work in a service or product area that you love, you will enthuse about it, and your enthusiasm will be conveyed to your customers and everyone you meet. People like to deal with enthusiastic suppliers - people who love their work. When you enjoy the subject of your franchise business you will naturally put in more effort than if you worked in a field that fails to inspire and excite you.

People who love their work always work hard and put in more hours. Their work becomes part of their life, rather than it being just a means to pay for their living costs.

Springbok Group (Pty) Ltd pride itself, keeping up to date with modern technology, innovative products and services, a strong brand and reputation, with growing markets, where the route to market favours our franchising business model.

When you go to our website and understand the details thereof you will most properly understand Springbok Group (Pty) Ltd.'s business plan, see how you can fit in and contribute to the company and yourself, always remember any company is just as good as its people. We are very selective when we appoint new people, therefore it is advised to familiarise yourself with our business models, standards and concepts as far as possible.

People are more developmental than they think they are. Please fill in the questionnaire below and see if you qualify for this great opportunity. Please note all information will be kept securely, confidential and is for our information purposes only!
